FOOD IN AUSTRIA SCARCER THAN EVER

Heavy Rains and Lack of Labor Have Ruined Crops, Says Lemberg Farmer.

Zurich, Sept. 3.—(Copyright, N. Y. World.)—"August brought to the Austrian agriculturist directly, and to all Austrians indirectly, an immeasurable catastrophe because climatic conditions are at the helm of government over there."

So said to the World correspondent today an Austrian just arrived from Lembers.

So said to the world correspondent today an Austrian just arrived from Lemberg.

"Today in Austria you would vainly
seek winter sowings which have not been
ruised by rain and neglect." he continued,
"while there is not enough barley or oats
for the farmers to sow, let alone to feed
the people. Besides, the floods of the last
six weeks and the lack of labor have
contributed to the catastrophe.

"The Breat-Litovsk peace deprived the
Austrian farmers of the labor of Russian
prisoners, although early application was
made to the military authorities for soldiers to work in the fields, and also as
carpenters, blacksmiths and saddlers in
the provinces ravaged by Russian invadars. The Vienna waiters and clerks are
utterly incapable of farm work.

the unhappy owners have no horses or
carts to carry it away. But the largelanded proprietors are worse off, for they
can get labor only in return for grain,
the laborers refusing money.

brought an unprecedented plague of mice,
which the farmers are bravely trying to

It will be remembered that Smith met his death membered that Smith met his death several days ago as the result of being atruck by Mr. Wilcox's automobile and knocked under a moving train. It is alleged that Smith, who was a watchman at the crossing on Main street, was attempting to flag down Mr. Wilcox's car when he was struck. Mr. Wilcox states that he never did see Smith, and the first thing he knew of the impending accident was when the headlight of the train blinded him and seeing he was going to strike the train. headlight of the train blinded him and seeing he was going to strike the train swerved his car to, prevent wrecking it. "Ninety per cent. of the farmers even lack granaries, for the government has not yet sent wood and workmen to rehulid those destroyed in the Russian in vasion. Last spring came too early, and the winter and spring sowings, with the clover, all flowered together. Then followed terrential rains. Combine this with the lack of labor, granaries and machinery and you have a fair picture of the disaster. Austria is utterly incapable of leeding her population, even to the extent of last year, while Hungary refuses to help, saying she has only enough grain for her own army and must import it for her civilans. Even potatoes, aithough they looked well, are beginning to rot.

"The coming year promises to be fraught with horrors for the Austrina people unless the government."

Cocoanut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and casy to manage.

Extracts from Letters by Grateful Parents to Chas. H. Fletcher.

Mrs. John W. Derrick, of Lexington, S. C., says: "My children cry for Castoria, I could not do without it."

Mr. and Mrs. J. A. Gaines, of Ripley, Tenn., say: "We enclose our baby's picture hoping it will induce some poor tired mothers to give your Castoria a trial. We have used it since baby was two weeks old."

Mrs. J. G. Parman, of Nashville, Tenn., says: "The perfect health of my baby is due to your Castoria-the first and only medicine he has taken. He is never satisfied with one dose, he always cries for more."

Mr. and Mrs. A. L. Johnson, of Stevens Point, Wis., say: "When our baby was two weeks old he cried so much we did everything for him, then got some Castoria and he is now strong and fat. We would not be without it, and are very thankful to you."
